

## Clothing

Before packing your clothes for moving you should get rid of clothing that you will never wear. You may not need some clothing when moving to a different climate region that may not require clothing used at the present region, e.g.: moving from winter region to a year round warm climate.

The following items will be needed for moving your clothes:

- Wardrobe boxes
- Suitcases.
- Medium (3.0 cubic feet) and large boxes (4.5 cubic feet).
- Tape.

### Packing Instructions

- Use wardrobe boxes for clothes from your closet. If the boxes have some space on bottom, consider filling it with lightweight items.
- Pack clothes from bureaus, dressers, chests in boxes or suitcases so they won't be too heavy to move
- Tape shut the box and mark "Clothing" with the person's name.
